Re: My Observation

Mr. Badolato:

After my stay at Emerald Peek, I felt a short note to say thank you was in order. I have never had reason too be in or exposed to a nursing/rehab facility such as Emerald Peek. During my stay I received what I deem to be quality care at all levels, and by all staff, especially Sandra Gomas whose guidance and input were invaluable.

As a rehab patient I had the opportunity to observe the interaction of all in the facility, including the nursing patients and I was impressed to say the least. Seeing the caring, attentive, professional manner which was shown to the patients and their families was commendable. The July 4th barbecue was perfect example which comes to mind. Seeing to it that all patients and their family members were accommodated and cared for was again impressive.

Thanks again all success in the future

Sincerely
Al Lodi
